

## gateProtect White List

September 2008

### Hardware compatibility

The purpose of this list is to give you some help and information about hardware to be used with gateProtect Firewall Server. We would appreciate if you contribute to this subject and could give us feedback. Please send your email to [support@gateprotect.com](mailto:support@gateprotect.com)

### Introductory note

There will be usually no problems with detecting harddisks, CPUs and motherboards while installing GP Firewall Server V8.1. To help you deciding which Mainboard, CPUs, Ethernet, ISDN, RAID and SCSI Controller devices you can use, we have compiled a Hardware Compatibility List, where some recommended Hardware is listed.

### List of tested with gateProtect V8.1

Virtualization solutions	
<b>VMWare</b>	ESX 3.5 / ESXi 3.5
	Server 1.0.6
	Workstation 6.0.4
	Player 2.0.4
Mainboard Chipsets	
<b>Intel</b>	945p
	965
	S3000
	S5000
	E7230
	E7505
CPUs	
<b>Intel</b>	Pentium 4 631
	Pentium Dual Core E 2160
	Xeon 304
	Xeon 5030A
Ethernet	
<b>D-Link</b>	D Link System Inc DL10050 Sundance Ethernet (rev 12)
	D Link System Inc DL10050 Sundance Ethernet (rev 15)
<b>Intel</b>	Intel Corporation 82541GI Gigabit Ethernet Controller (rev 05)
	Intel Corporation 82546GB Gigabit Ethernet Controller (rev 03)
	Intel Corporation 82546GB Gigabit Ethernet Controller (rev 03)
	Intel Corporation 82557/8/9 [Ethernet Pro 100] (rev 0c)
	Intel Corporation 82571EB Gigabit Ethernet Controller (rev 06)
	Intel Corporation 82573V Gigabit Ethernet Controller (Copper) (rev 03)
	Intel PRO/1000MT Dual Port
	Intel PRO/1000PT EWPI9402PT

## gateProtect White List

September 2008

Ethernet	
Realtek	Realtek 8139D low profile
	Realtek Semiconductor Co., Ltd. RTL8111/8168B PCI Express Gigabit Ethernet controller (rev 01)
	Realtek Semiconductor Co., Ltd. RTL 8139/8139C/8139C+ (rev 10)

  

ISDN	
AVM	AVM Fritz!PCI v2.0 ISDN (rev 01)

  

SCSI	
Adaptec	Adaptec AIC 7902B U320 (rev 10)

  

Raid Controller	
3ware	3ware Inc 7xxx/8xxx series PATA/SATA RAID (rev 01)
	3ware Escalade 8006 2LP SATA Raid

  

USB-Sticks (for installation)	
Kingston	Mini 1 GB
	Data Traveler II 512 MB
	Data Traveler Secure 1 GB

  

A-Data	my flash' 1 GB
--------	----------------

  

Sharkoon	Flexi Drive 2 GB (USB 2.0)
----------	----------------------------

### Note

We do not offer an express or implied warranty for the correctness/up-to-dateness of the information contained here (which may be change at any time). Future products will be made available at the appropriate time.
